INTRODUCTION

The Index to Photographic Exploitation Products (PEP) is a guide to the contents of reports and memoranda produced by means of imagery exploitation. The index is extracted from the Exploitation Products File (EPF) of the National Base of Image-Derived Information (NBIDI). Reports are added to the EPF as they are received by the National Photographic Interpretation Center (NPIC). The index includes references to imagery exploitation reports produced by various components of the Army, Navy, Air Force, Central Intelligence Agency, Defense Intelligence Agency and foreign governments, as well as those produced by NPIC. At the request of COMIREX, this index is compiled monthly, then cumulated annually by NPIC for the use of properly cleared components of NFIB member organizations.

The EPF is also available directly to users on-line by means of the Community On-Line Intelligence System (COINS). Assistance is available to COINS users from the COINS Project Management Office:

[redacted]

Additional information, such as bibliographies on specific subjects, is available from the EPF to answer requests which cannot be easily satisfied from the PEP.

Request for these special listings, for regular distribution of the PEP, or for microfiche and/or hard copy originals of documents should be channeled through appropriate organizations:

- CIA/OCR/CLD/DSB
- DIA/RTS-2C

- HQ USAF/INYK
- ITAC/IIPD/IRB
- NAVINTSUPCEN (Code70)

- NPIC/OSG/RSD/IB
- NSA/V363

GUIDE TO USERS

The PEP consists of five indexes:

An alphabetical listing by name of installation or Subject/Title
Includes Subject/Title, WAC-BE number, Country Code (CC), Originator (ORG), Requester/Producer code (RP), Report #1, Control number, and Accession number.

A listing by EPF Subject Category
Includes EPF Subject Category (CAT), Subject/Title, Installation Data Handling System (IDHS) code, CC, ORG, RP, Report #1, Control number, and Accession number.

A listing by WAC-BE number
Includes WAC-BE number, Subject/Title, CC, ORG, RP, Report #1, Control number, and Accession number.

A listing by Object Number
Includes Object #, Subject/Title, CC, ORG, RP, Report #1, Control number, and Accession number.

A listing by Accession number*

*The accession number sequence may be referred to for more complete information on each document, including an edited abstract. An asterisk at the end of the abstract indicates the abstract was prepared by the NPIC Reports Analysis Section. Selected information is contained in the other sequences. The accession number should be referred to when ordering microfiche copies of documents.
